Lakecross is a combination of Trail riding skills, Snocross & Lake racing. A curvy 2 mile course is laid out on the unplowed lake with some jumps and whoops. Drivers race head to head in heat races to qualify for the finals at the end of the day.

A "run what ya brung" format is used so stock and modified sleds are allowed. Classes are divided by engine size, driver skill level, traction products allowed, etc. - see list below. Drivers must be at least 16 years old*, have a helmet and eye protection, and wear a "saf jac" vest (rentals available for \$20). All sleds will be safety inspected and must have a working Tether switch.
